Air Purifiers: Eliminate Indoor Air Pollutants

Air contamination control has become increasingly significant in our day-to-day lives. Polluted air is a major cause of concern for families whose members have different allergies and asthma. Hence, we should be very concerned about the quality of air that we breathe. It is difficult to eliminate all the air pollutants but air purifiers can clean the air to some extent. This can be achieved by using the best air purifiers in our offices and in our homes.Surround Air PurifiersSurround Air Purifiers manufactured by Indoor Purification Systems Inc, are based on ionic air purifying technology. The Indoor Purification Systems Inc has been in business since 1988 and is one of the pioneers in the field of air purification.How Surround Air Purifiers WorkMost pollutants found in the air are positively charged. Surround air purifiers use ionic technology to produce negative ions. These negatively charged ions magnetically attract the positively charged ions that are present in air as pollutants. The positively charged ions are too heavy to remain in air, and stick in to the charged plate, leaving the air free from pollutants.Surround Air Purifiers: Air Purification in 6 StepsSurround Air Purifiers are available in different sizes and shapes. The Surround air purifiers use six technologies in a single unit. High Efficiency Particulate Air filters are fitted to remove dust and allergens. The ultraviolet lamp kills all the microbial organisms. An activated carbon filter prevents the spread of chemicals and smoke and a programmable sanitizer checks the spread of bad odor. This sanitizer can be kept at on or off position as desired. There is also an anti-bacterial pre-filter that takes care of larger particles. The amount of ions produced by the ionizer is equal enough to neutralize the particles that float in the air.Surround air purifiers are highly efficient. A vehicle air purifier variety of Surround air purifier clears the air inside a car. HEPA air purifier and Multi-Tech Ionic are at the most popular models of More helpful hints this air purifier series. Use surround air purifiers to breathe refreshing, invigorating air at home.
