What is Crazy Time?

Released in 2020 by Evolution, Crazy Time is built on the enormous success of earlier wheel-based video games like *Dream Catcher* and *Monopoly Live*. Hosted by charismatic speakers in a dynamic, circus-themed studio, the video game focuses on a giant, 54-segment mechanical wheel.

The primary goal for gamers is simple: predict which sector the wheel will stop on after the host gives it a spin. However, the video game goes far beyond fundamental guessing by incorporating a Top Slot multiplier feature and four immersive benefit rounds that can cause payouts of up to 25,000 x the gamer's stake.

The Wheel Breakdown

To understand how the game works, one should initially look at the circulation of sectors on the main money wheel. There are 54 sectors in overall, divided among numbers and bonus offer games.

Section Type Variety of Segments on Wheel Payment/ Function **1** 21 Pays 1:1 **2** 13 Pays 2:1 **5** 7 Pays 5:1 **10** 4 Pays 10:1 **Coin Flip** 4 Triggers the Coin Flip reward round **Money Hunt** 2 Triggers the Cash Hunt perk round **Pachinko** 2 Triggers the Pachinko benefit round **Crazy Time** 1 Sets off the ultimate Crazy Time reward round

The Top Slot: Doubling Down on Excitement

Before each and every single spin of the primary wheel, a two-reel **Top Slot** spins at the same time above the main video game. One reel arbitrarily picks a bet area (a number or a benefit game), while the other reel picks a random multiplier (varying from 2x as much as 50x).

If the bet area and the multiplier align horizontally on the Top Slot, that multiplier is used to the matching section for that spin. If the main wheel lands on that sector, all wins for that number or benefit video game are multiplied appropriately. This feature is the primary engine behind the video game's most jaw-dropping payouts.

The Four Crazy Time Bonus Rounds
