1. **Standard Issuance:** For brand-new chauffeurs passing the theoretical and practical assessments within Belgium.
2. **Exchange:** For individuals holding a valid motorist's license from an EU/EEA member state or specific non-EU countries with mutual arrangements.
3. **Replacement or Renewal:** For those whose licenses have been lost, stolen, harmed, or have reached their expiration date.

Step 1: Fulfill the Prerequisites

Before any physical or digital order can be positioned, applicants should satisfy particular legal criteria:

- **Residency:** You must be officially signed up in a Belgian municipality and hold a valid electronic house license (*e-ID* or foreign national card).
- **Medical Fitness:** Certain categories (like truck and bus licenses) need a qualified medical examination. For basic Category B, a self-declaration of physical fitness is typically sufficient.
- **Assessments (If relevant):** New motorists need to successfully pass both a computer-based theoretical examination and a useful driving test through an authorized Belgian driving center.

Step 2: Gather Required Documentation

When you visit your local administration office to start the order, ensure you bring the following documents:

- A legitimate passport or national identity card.
- Your existing electronic home permit (*e-ID*).
- A recent passport-style photo (if your municipality does not recycle the image from your electronic identity card).
- Your previous driver's license (if appropriate, in cases of renewal or forex).
- The pass certificate from the theoretical and practical exams (for novice drivers).

Costs for processing and making the license differ a little from one town to another, normally ranging between **EUR25 and EUR35**.

Timelines and Emergency Processing

As soon as the application is officially signed up in the system, the physical card is produced centrally.

- **Express Processing:** For individuals with urgent travel or employment needs, an expedited service is available. If ordered in the morning, the license can frequently be all set within **24 to 48 hours**, though this sustains a considerably higher administrative cost (typically going beyond EUR100).

Exchanging a Foreign Driver's License in Belgium

For expats transferring to Belgium, the rules concerning foreign licenses can be intricate. The ability to simply "swap" a foreign license for a Belgian one depends entirely on the providing nation.

- **Non-EU/Non-EEA Licenses:** Generally, non-EU licenses stand for a maximum of **185 days** after developing official residency in Belgium. After this period, the license must be exchanged for a Belgian one, provided Belgium has a mutual agreement with the providing nation.
