The Four Bonus Rounds Explained

The main appeal of Crazy Time lies in its 4 benefit rounds. These mini-games use the highest multipliers and the most visually appealing gameplay.

1. Coin Flip

The most basic of the reward rounds. A coin with a red side and a blue side is flipped by a maker. Before the flip, random multipliers are assigned to each side. Whichever side lands face up awards the gamer that corresponding multiplier.

2. Money Hunt

Players deal with a huge screen displaying 108 random multipliers hidden behind various https://bitz.io/games/crazy-time shooting targets (like cacti, targets, and hats). Using a virtual cannon, the player chooses one target, and the concealed multiplier is exposed and applied to their bet.

3. Pachinko

Motivated by the traditional Japanese arcade game, a radiant puck is dropped from the top of a large board filled with pegs. The puck bounces down and lands in among the landing zones at the bottom, each featuring a multiplier. If it lands on a "Double," all multipliers on the board double, and the puck is dropped once again.

4. Crazy Time

This is the holy grail of the video game. Players go into a virtual, surreal world behind a red door, welcomed by an even bigger huge wheel. Players must choose one of three flappers (Green, Blue, or Yellow). The wheel spins, and anywhere the chosen flapper stops figures out the reward. Multipliers can reach up to **20,000 x**.
