- **Red:** Usually pays out 2:1.

Popular Betting Strategies in CS2 Roulette

- **The Martingale System:** This is a progression-based strategy where players double their bet after every loss. The theory is that a single win will recuperate all previous losses plus a revenue equivalent to the original stake.
- **The Paroli System:** The inverse of Martingale, this strategy includes doubling the bet after every *win*. It allows gamers to capitalize on winning streaks while restricting losses during cold spells.
- **The D'Alembert System:** A more conservative approach where gamers increase their bet by one unit after a loss and reduce it by one unit after a win. This reduces the threat of quick bankroll exhaustion.
