The theme revolves around the renowned bearded fisherman heading out to sea in his small boat. When the wagering window closes, the boat sets sail, and the multiplier starts to climb up, starting at 1.00 x.

As the boat moves throughout the screen, the multiplier increases. Gamers should hit the "Cash Out" button before the boat encounters trouble (or the catch gets away). If a player effectively cashes out in time, they win their original stake multiplied by the current value. However, if the game "crashes" before they cash out, the bet is lost.
