2. **Reel 2** display screens a random multiplier (varying from 2x up to 50x).

If the horizontal line in the Top Slot aligns a bet with a multiplier, that multiplier applies to that particular result for the upcoming spin. If the primary wheel arrive at that outcome, any wins for that round are increased by the multiplier. If a reward round is triggered with a Top Slot multiplier attached, the beginning multipliers inside the reward game are immediately increased by that figure.

Diving Into the Four Bonus Rounds

The true heart of Crazy Time depends on its 4 bonus games. Setting off among these rounds transports players from the primary studio into a distinct increased reality mini-game.

1. Coin Flip

The easiest of the perk rounds. A coin with a red side and a blue side is turned by a mechanical arm.

- Before the flip, random multipliers are appointed to both the red and blue sides.
- Whichever side lands face up wins the multiplier for the participating players.
- If the multipliers are low, a "Rescue Flip" can sometimes be set off, offering players another chance at higher rewards.

2. Money Hunt

3. Pachinko

Motivated by the traditional Japanese arcade video game, Pachinko features a radiant, vertical board filled with physical pegs.

- The host drops a puck from the top of the board.
- The puck bounces arbitrarily down through the pegs up until it lands in one of the multiplier zones at the bottom.
- If the puck arrive on a "**Double**" value, all multipliers at the bottom of the board double, and the puck is dropped again, leading to possibly enormous payouts.

4. Crazy Time

The supreme bonus round takes players behind a red door into a surreal, whimsical virtual world featuring a huge, 64-segment wheel.
