## What is Avia Masters?

Developed by ingenious software application company BGaming, Avia Masters is an arcade-style instant win game. Unlike standard slots that rely on fixed paylines, Avia Masters revolves around a flying aircraft. The objective is to cash out before the airplane undoubtedly crashes, flies off-screen, or encounters a fatal danger.

The game interest a broad group because it strips away complicated perk rounds and thick rulebooks, replacing them with pure, real-time decision-making.

## Core Gameplay Mechanics

Understanding the mechanics of Avia Masters is important for anyone aiming to try their hand at the game. Here is a breakdown of how a common round unfolds:

1. **The Betting Phase:** Before departure, players select their stake size. Numerous versions of the game permit dual betting, meaning gamers can position two different wagers on the exact very same flight with independent cash-out points.
2. **The Takeoff:** Once bets are locked, the airplane launches. As it gains elevation, the multiplier coefficient begins ticking up from 1.00 x.
3. **Multipliers and Obstacles:** Along the flight path, players might come across different modifiers, fuel boosts, or multipliers that enhance their potential payment. However, the risk of an abrupt crash increases the longer the flight continues.
4. **The Cash-Out:** The gamer should strike the "Cash Out" button before the aircraft crashes. If effective, the initial stake is multiplied by the current value and contributed to the player's balance. If the aircraft crashes before squandering, the bet is lost.

    - *Objective:* Balance danger and benefit within a single round.
- **The High-Risk Chaser:**
    - *How it works:* Wait out lower multipliers, intending specifically for high-tier coefficients (10x, 20x, or higher).
