Some gamers use a variation of the Martingale system, where they double their bet after a loss. **Caution:** This is an aggressive technique. Since Mystery Mines can result in losing streaks, this method carries a high danger of depleting a bankroll quickly.

3. The "Stop-Win" Goal

Set a predefined earnings target for each round. For example, if you bet £ 1, set a goal to squander once you struck £ 1.50. When you attain this, stop the round instantly. This prevents the "greed factor" from causing you to click one too many tiles and losing whatever.

Vital Best Practices

To make sure a favorable experience, players should adhere to the following list of best practices:

- **Set a Hard Budget:** Never gamble with money you can not manage to lose. Treat it as entertainment, not a source of income.
- **Confirm Fairness:** Always use platforms that allow you to check the "Provably Fair" string. This proves the site isn't rigging the tiles based on your bet amount.
- **Avoid "Chasing":** If you lose a round, do not right away increase your bet to "win it back." This is the fastest way to lose your total capital.
