

If you're planning a home remodel, roofing project, or just clearing out years of clutter, knowing exactly what you can toss in a dumpster can save you headaches and surprise fees. At **D.E.M.M. DUMPSTERS LLC**, located right here in Hampton Roads, we pride ourselves on transparency, convenience, and a wide acceptance policy for waste—whether it's typical *household junk, construction debris, or general trash*.

Understanding What Types of Waste Are Accepted

Before booking your dumpster, it's important to know the types of items that are accepted, so you can sort your debris properly, avoid prohibited materials, and get the right dumpster size for your job.

1. Household Junk Accepted

Are you tackling a big home cleanout or decluttering garage and attic spaces? We accept a broad range of household junk, including:

- Old furniture (couches, chairs, tables)
- Appliances (non-hazardous items like refrigerators, washers, dryers)
- Boxes of miscellaneous clutter
- Mattresses and bed frames
- Carpet and padding
- Clothing and textiles
- General household trash and packaging

Note: Hazardous waste such as paint, batteries, chemicals, or propane tanks are not accepted. If you have these items, we can guide you to local disposal options.

2. Construction Debris Accepted

For remodelers, roofers, and contractors, hauling off construction debris can be an arduous task. Here's what we typically accept:

- Wood (treated and untreated lumber)
- Drywall and plaster
- Roofing shingles and tar paper
- Concrete, bricks, and masonry (small amounts)
- Metal scraps and pipes
- Cabinetry and vanity pieces
- Flooring materials including tile and linoleum

Large quantities of concrete or brick may require special handling; call us for details or to arrange a special order.

3. General Trash Accepted

In addition to household junk and construction debris, we accept general trash items like:

- Plastic containers and bags
- Cardboard boxes (flattened)

- Paper waste
- Garden debris (branches, shrub clippings)

What Items Are Not Accepted?

For safety and environmental reasons, certain items are prohibited from our dumpsters. This includes:

- Hazardous materials (paint, solvents, asbestos, batteries)
- Flammable liquids and gases (propane tanks, gasoline)
- Medical waste or biohazards
- Explosives or ammunition
- Electronics (computers, TVs) – check with local e-waste programs

If you're unsure about whether a particular item is accepted, simply give **D.E.M.M. DUMPSTERS LLC** a call or check our FAQ section on our website.

Dumpster Size Guide: Choosing the Right Size For Your Project

Selecting the right-sized dumpster can make your project easier and <https://demmdumpsters.com> more cost-effective. At D.E.M.M. Dumpsters, we offer 10, 15, and 20-yard dumpsters — each suited for different project scales.

Dumpster Size Typical Use Volume (Cubic Yards) Examples
10-yard Small to medium home cleanouts, minor remodel debris 10 cubic yards
Baseball field sized dumpster, holds about 3 pickup truck loads
15-yard Larger remodel projects, roofing debris dumps 15 cubic yards
Approximately 4.5 pickup truck loads
20-yard Major remodeling, new construction waste 20 cubic yards
About 6 pickup truck loads

Not sure which size fits your project? Our team at D.E.M.M. Dumpsters LLC can help with sizing recommendations during the booking process via phone or our convenient online booking system.

Transparent Pricing & No Hidden Fees

Cost can be one of the biggest concerns when renting a dumpster. We understand how frustrating hidden fees and surprises can be — which is why **D.E.M.M. DUMPSTERS LLC** offers upfront pricing you can trust.

Dumpster Size & Duration Price
10 Yard - 3 days \$349
10 Yard - 7 days \$399
10 Yard - 14 days \$469

These prices include a set number of tons included in your rental fee. If your load exceeds the included tonnage, a per-pound overage fee applies — but again, all of this is disclosed upfront at booking so you know exactly what to expect.

How Are Tonnages and Overage Costs Handled?

Each rental includes a weight allowance — typically a few tons — to cover typical debris loads. For example:

- 10-yard dumpster includes about 2-3 tons of debris
- 15-yard dumpster includes slightly more tonnage
- 20-yard dumpster has the highest tonnage allowance

If your load is heavier than the allowance, the overage costs are calculated by the pound and added to your final bill. We clearly explain these rates when you place your order, so there are no surprises.

Fast, Flexible Delivery Options

We know timing is everything on a jobsite. That's why we offer **same-day or next-day delivery when available**. Whether scheduled online at demmdumpsters.com or via phone, we work to get dumpsters placed quickly so your crews and projects keep moving.

If you have an urgent need, call us directly and we'll do our best to accommodate your schedule.

How to Book Your Dumpster With D.E.M.M. DUMPSTERS LLC

Booking your dumpster is simple and straightforward:

1. **Visit demmdumpsters.com** and use our online booking tool. Answer a few questions about your project type and size, select your dumpster size and rental duration, and reserve your dates.
2. **Or call our friendly customer service team.** We're happy to answer your questions live and help select the right dumpster, schedule delivery, and explain costs.
3. We confirm your reservation and schedule delivery for the earliest available slot—often same-day or next-day.

We'll drop your dumpster off, you load it up over your rental period, then we pick it up and take care of disposal. Simple as that.
