3. How to Play: Step-by-Step Guide

a. Understanding the Grid

- **Tiles**: The grid is made up of covert squares. Some conceal a mine; others are safe.
- **Numbers**: When a safe tile is exposed, it may display a number (1-8) showing the number of mines are situated in the 8 surrounding squares.

b. Basic Actions

- **Left-Click/ Tap**: Reveal a tile.
- **Right-Click/ Long-Press**: Place a flag on a believed mine.
- **Chording** (PC version): Click an exposed number that already has the correct number of flags around it to immediately reveal all nearby non-flagged tiles. This is a useful faster way for clearing larger locations rapidly.

c. Strategic Approach

- **Start with Corners**: The first move is constantly a guess, but starting at a corner can reduce the likelihood of hitting a mine early.
- **Try to find Patterns**: Certain number setups (e.g., "1-2-1" or "1-2-2-1") correspond to classic mine placements. Recognizing these can dramatically accelerate deduction.

4. Top 5 Strategies for Success

Below is a bullet-point list of tested strategies that can help gamers improve their win rate and unlock story content much faster.

- **1. Utilize the "First-Click Safety" Rule**
    - Mystery Mines guarantees that the first tile you click is never a mine. Utilize this to obtain preliminary numbers and plan subsequent moves.
- **2. Master the 1-2-1 Pattern**
    - A series "1 2 1" (three numbers in a row) shows a mine straight beneath the middle "2". Flag that tile to clear the surrounding safe spots with confidence.
- **3. Use the "2-2-2" or "1-2-2-1" Configurations**
    - These patterns signal a line of mines lined up with the outer numbers. Determining them early avoids unexpected detonations.
- **4. Flag Only When Certain**
    - Over-flagging can obscure possible safe tiles and lead to mis-calculations. Reserve flags for high-confidence mine areas.
- **5. Utilize Power-Ups Wisely**
    - The "Reveal" power-up is best saved for moments when you're stuck on a dense cluster of unrevealed squares. Using it too soon can lose an important resource.
