- When time ends, the surprise multiplier behind the picked symbol is revealed and applied to the gamer's stake.

- As the puck bounces down through the labyrinth of pegs, it eventually lands in among the landing zones at the bottom.
- Each zone consists of a multiplier. If the puck lands on a "DOUBLE" zone, all multipliers on the board double, and the puck is dropped once again for even larger wins.

## 4. Crazy Time

## The Top Slot Feature

- The ideal reel selects a random multiplier.
- If the Top Slot effectively matches the winning segment on the primary wheel, the multiplier is used to that spin or triggers a magnified perk round. This mechanism is what permits gamers to secure payments of up to 500,000 x their initial bet.
