

Annie Paige Photography is known for a film-inspired aesthetic, soft, luminous, and rich with emotion rather than heavily processed or overly staged. This approach blends both digital and film photography techniques, giving couples a timeless quality to their wedding images that holds up for decades. The style favors natural light and authentic moments over forced poses, which tends to produce images that feel true to how the day actually happened.

Annie Paige Photography | 59 State St, **wedding photography in Portland** Portland, ME 04101 | (207) 841-4333
