FAQ About Dumpster Rental Service

How long can I rent a dumpster for?

Most dumpster rental services in Asheville, NC, offer rentals for a standard period of 7 to 14 days. However, extensions are usually possible for an additional fee, allowing for more flexibility depending on your project needs.

What items can you put in a dumpster?

In Asheville, NC, dumpsters can be used for various non-hazardous waste items such as construction debris, household junk, and yard waste. However, hazardous materials, electronics, and certain appliances are typically prohibited. Always check with your rental service for specific guidelines.

Do I need a permit for a dumpster rental in Asheville?

In Asheville, NC, a permit may be required if the dumpster is placed on a public street or sidewalk. It's advisable to check with the local city regulations and your dumpster rental company to ensure compliance and avoid fines.

How do I choose the right dumpster size?

To choose the right dumpster size for your project in Asheville, NC, consider the amount and type of waste you'll be disposing of. A smaller 10-15 yard dumpster is great for home cleanouts, while larger 20-30 yard options are better for renovations or construction debris.

Eco-Friendly Waste Management Practices

At Westward Dumpster Rental, we believe in eco-conscious practices. Our dumpster rental service in Asheville, NC, is committed to lessening waste in landfills by encouraging recycling and proper disposal methods. We work closely with local recycling centers to confirm that as much waste as possible is repurposed. This way, you're not

only getting rid of your junk, but you're also [Dumpster rental service Asheville NC](#) contributing to the health of our local community and environment.

How to Choose the Right Dumpster Size

Choosing the right dumpster size can be overwhelming, but Westward Dumpster Rental is here to help! Our experienced team provides support in selecting the perfect dumpster for your project. Start by considering the amount of waste you expect to generate. For small cleanouts or remodels, a 10-yard dumpster may be sufficient, while larger projects may require a 30-yard dumpster.
