- **Reel 2** screens a multiplier value (ranging from 2x as much as 50x).

If the bet spot and the multiplier align horizontally on the Top Slot, that multiplier is applied to the sector for that spin. If the wheel lands on that section, all payouts or reward round multipliers are boosted appropriately. This mechanic is where the video game attains its most explosive win potential.

Dive Into the Four Bonus Rounds

The real magic of Crazy Time depends on its four bonus offer rounds. While gamers can win decent payments on the base video game numbers, the reward rounds offer immersive gameplay and the possibility to land enormous multipliers.

1. Coin Flip

- Before the flip, random multipliers are appointed to both sides of the coin.
- The host flips the coin, and whichever side lands deal with up identifies the gamer's multiplier reward.

2. Cash Hunt

This bonus offer round shifts players to a huge screen including a shooting gallery filled with 108 random multipliers.

- The multipliers are hidden behind different signs (such as a cactus, target, or constable's badge).
- Players utilize an on-screen cannon to take goal and shoot at their picked symbol before the timer runs out.
- When time ends, all cannons fire, exposing the covert multipliers for each gamer.

3. Pachinko

Influenced by the conventional Japanese arcade video game, Pachinko features a large wall filled with physical pegs.

- The host drops a puck from the top of the wall.
- The puck bounces randomly down through the pegs before landing in among the slots at the bottom, each containing a multiplier.
- If the puck lands in a **"DOUBLE"** slot, all multipliers on the board double, and the puck is dropped again until a multiplier is won (as much as an enormous cap).

4. Crazy Time

The crown gem of the video game. When set off, the host opens a red door causing a surreal, colorful virtual world featuring a gigantic 64-segment wheel.

- Gamers choose among 3 flippers: **Green, Blue, or Yellow**.
- The host spins the huge wheel.
- When the wheel stops, the sector shown by the player's picked flipper awards the prize.
- Just like Pachinko, landing on **"DOUBLE"** or **"TRIPLE"** increases all multipliers on the wheel, enabling for re-spins up to an incredible 20,000 x or 25,000 x maximum win limitation.
