What is Big Bass Crash?

In this game, players put a wager before the round starts. Once the action starts, the charismatic angler sets off on his boat, casting his line. As the boat relocations, a multiplier coefficient constantly increases, beginning at 1.00 x and climbing up upwards.

The core objective is easy yet exhilarating: **squander before the line snaps or the catch leaves**. If players cash out in time, they win their stake multiplied by the present value. If they hold on too long and the crash happens, they lose their bet.
