What is Crazy Time?

At its core, Crazy Time is a wheel-of-fortune style game hosted by a live, charismatic presenter. Embed in a lively, Willy Wonka-esque studio filled with vibrant graphics, surprise pathways, and interactive elements, the game is relayed in high definition 24/7.

The primary goal is simple: players wager on where they believe the enormous, 55-segment wheel will stop. However, what separates Crazy Time from its predecessors (like *Dream Catcher* or *Monopoly Live*) is the sheer density of its bonus offer features. With four distinct mini-games ingrained onto the wheel, players are offered numerous layers of engagement that go far beyond a basic spin.

The Anatomy of the Wheel

The Crazy Time wheel includes 54 sectors. Each sector represents either a numerical payment (1, 2, 5, or 10) or one of the four benefit games. The distribution of these segments dictates the volatility and frequency of wins.

Section Type Variety of Segments on Wheel Base Payout **1** 21 1:1 **2** 13 2:1 **5** 7 5:1 **10** 4 10:1 **Coin Flip** 4 Activates Bonus Game **Cash Hunt** 2 Triggers Bonus Game **Pachinko** 2 Sets Off Bonus Game **Crazy Time** 1 Sets Off Bonus Game

The Top Slot Feature: Amplifying the Action

Before each and every single spin of the primary wheel, a secondary, two-reel slots spins concurrently above the primary game. This is known as the **Top Slot**.

- **Reel 1** displays a segment of the wheel (either a number or a benefit video game).
- **Reel 2** screens a multiplier (varying from 2x approximately 50x).

If the symbol on the first reel lines up horizontally with the multiplier on the 2nd reel, that multiplier is used to the corresponding section for that round. If the wheel arrive on that particular section, bitz.io all wins for that result are multiplied. This function is where the potential for huge payouts comes from.

Diving Into the Four Bonus Rounds

The real heart of Crazy Time lies in its four bonus offer rounds. Landing on one of these sections transports gamers out of the base game and into an entirely various, highly interactive environment.

1. Coin Flip

The most basic and most frequent bonus round. A coin with a red side and a blue side is turned by a mechanical flipper.

- Before the flip, random multipliers are assigned to both the red and blue sides.
- Whichever side lands face up awards the gamer the multiplier connected to it.

2. Money Hunt

This bonus transforms the screen into an enormous shooting gallery including a 108-multiplier grid.

- The multipliers are randomly mixed and hidden behind numerous signs (such as a cactus, target, or chef's hat).
- Gamers are offered a minimal countdown timer to objective and fire a cannon at the symbol of their choice, exposing the hidden multiplier below. Because each player chooses their own target, private outcomes will vary.

3. Pachinko

Motivated by the standard Japanese arcade game, Pachinko features a radiant, vertical board filled with physical pegs.

- The presenter drops a puck from the top of the board.
- As the puck bounces randomly down through the pegs, it eventually lands at the bottom in one of several multiplier zones-- or on a "DOUBLE" slot, which doubles all multipliers on the board and sets off a drop-again.

4. Crazy Time

The holy grail of the video game. Hitting this single section on the primary wheel opens a door to a jaw-dropping virtual world behind the studio wall.

- Gamers are greeted by a massive, 64-segment virtual wheel featuring 3 flippers (Blue, Green, and Yellow).
- Players should pick one of the three flippers before the wheel spins.
- The wheel can reach staggering heights, offering multipliers as much as 20,000 x if "DOUBLE" or "TRIPLE" sectors are struck along the method.
