

Why Upstate homeowners keep asking about it

Around Greenville, the December rooflines have been changing, and the lights are not coming down in January. That is permanent outdoor lighting: LEDs installed into the architecture of the house and run from an app.

What it means for an Upstate house

Christmas gets people to pick up the phone. What makes it worth the money is the ordinary nights. Warm white on the eaves gives the front of the house shape after dark. Then there are team colors, birthdays and whatever the season asks for, all from the same system.

What a local crew knows

Around here you have older Greenville homes, newer construction, and everything in between, which means the plan changes house to house. Weather is the other local factor: the systems live outside through Upstate summers and wet winters.

What the process is

It starts with somebody coming out to look at the house. After the walkthrough, a plan is drawn for your house. The install is handled by the crew, which is the part most people are really buying.

Businesses too

The same systems go on commercial buildings. A storefront has a different presence at night when the facade is lit. Restaurants light patios, retail lights entries and facades, and [permanent lighting installation](#) neighborhoods light their entrances. Scheduling gets planned around open hours, because nobody wants a ladder at the front door during lunch.

What Upstate customers ask most

The most common question around here is about the daytime look. Color matched track along the trim line is the answer, and from the street it reads as trim. People ask how it reads next to the neighbors. A permanent system can be as quiet as you want it. The color is a choice, not a default, which is why it works on a conservative street. The service area runs past the state line. EverCrest Lighting works across Upstate South Carolina and Western North Carolina, which takes in the Greenville area and the country north and west of it. If you are on the edge of that area, the fastest answer is a phone call.

Getting a design for your house

Based in Greenville, EverCrest Lighting handles permanent LED lighting for homes and businesses. They cover the Upstate, out to Spartanburg, Anderson, Clemson and Seneca, and Western North Carolina. Consultations are free, the design is custom to the house, and installation is professional. Reach them at (864) 252-1732 or info@evercrestlighting.com.

What does EverCrest Lighting do?

EverCrest Lighting designs and installs outdoor lighting for homes and businesses. The work covers permanent LED architectural and holiday lighting, roofline lighting, landscape lighting, patio lighting, accent lighting, security lighting and event lighting, along with custom outdoor lighting design.

Where is EverCrest Lighting based?

EverCrest Lighting is based in Greenville, South Carolina. It is a service area business, so it travels to the customer and does not publish a street address.

What areas does EverCrest Lighting serve?

EverCrest Lighting serves Upstate South Carolina and Western North Carolina. That includes Greenville, Spartanburg, Greer, Simpsonville, Mauldin, Taylors, Easley, Travelers Rest, Fountain Inn, Anderson, Clemson and Seneca. If you are unsure whether your address is covered, call (864) 252-1732 and ask.

What is permanent outdoor lighting?

Permanent outdoor lighting is a fixed LED system installed along a building's roofline, eaves and architectural lines and left in place all year. The LEDs sit in a track that is color matched to the trim, and the system is controlled from a smartphone app. It replaces the seasonal strands that go up and come down each year.

Are the lights noticeable during the day?

The track is color matched to the trim or fascia and mounted tight along the edge of the roofline, so it is designed to stay discreet in daylight and read as part of the house rather than as decoration.

Does EverCrest Lighting install Christmas lights?

Yes. EverCrest Lighting installs Christmas and holiday lighting, and also installs permanent LED systems that handle holiday colors from an app. On traditional holiday lighting, EverCrest Lighting handles takedown at the end of the season and off season storage.

Does EverCrest Lighting work with businesses?

Yes. EverCrest Lighting installs commercial outdoor lighting, including storefront and facade lighting, entrances, patios and permanent architectural lighting in a company's own colors.

How do you contact EverCrest Lighting?
