If a gamer squanders successfully, they win their original bet increased by the current coefficient. If the aircraft flies away-- in your area referred to as the airplane "crashing"-- before the player cashes out, the bet is lost.

2. **Speed and Instant Gratification:** Unlike football betting, where a punter might wait 90 minutes (or days) for a match to conclude, an Aviator round lasts anywhere from a couple of seconds to half a minute.
3. **Low Barrier to Entry:** Players can position bets with amounts as low as 10 KES, making the game available to casual players on a budget.
4. **Control Over the Game:** Unlike standard slots where the gamer simply strikes "spin" and hopes for the very best, Aviator allows gamers to actively pick when to protect their winnings.
